

PITCH DECK / 10 NEW CONCEPTS

Wholesome 2D pitches built for Steam-first discovery.

Ten new commercially readable concepts, each with a visual identity strong enough for capsule art, screenshots, and a short trailer.

Every pitch in this deck stays non-violent, kind, and easy to understand from a store page. The art mockups on the right show the target mood, palette, and silhouette language for each game.

How to use this deck

Pick favorites by fantasy, clarity, and screenshot appeal first. Then combine the strongest emotional hook, easiest core loop explanation, and most ownable visual silhouette.
